MODS-M&A — October 2026

Concise employee work and attendance records for RAG retrieval

Included: Only employees with explicit WORKED, LEAVE, or CLIENT_HOLIDAY records. Dates with no timesheet row, blank NOT_RECORDED rows, and employees with no daily entries are omitted to reduce irrelevant retrieval.

Interpretation: WORKED, LEAVE, and CLIENT_HOLIDAY are copied from the source. A WORKED entry with no task description means the source recorded work but did not provide a task. Omitted dates must not be treated as leave or absence.
